## Project Design Phase-II Solution Requirements (Functional & Non-functional)

| Date          | 03 October 2022                  |
|---------------|----------------------------------|
| Team ID       | PNT2022TMID53249                 |
| Project Name  | Project – Customer Care Registry |
| Maximum Marks | 4 Marks                          |

## **Functional Requirements:**

Following are the functional requirements of the proposed solution.

| FR No. | Functional Requirement (Epic) | Sub Requirement (Story / Sub-Task)                    |
|--------|-------------------------------|---|
| FR-1   | User Registration             | Registration through Form                             |
|        |                               | Registration through Gmail                            |
|        |                               | Registration through LinkedIN                         |
| FR-2   | User Confirmation             | Confirmation via Email                                |
|        |                               | Confirmation via OTP                                  |
| FR-3   | User Login                    | Login via Google                                      |
|        |                               | Login via email id and password                       |
| FR-4   | Customer Query                | Access through email and chatbot from chosen website. |
| FR-5   | Database                      | Preserving the modelled item                          |
| FR-6   | Feedback                      | Customer's Feedback                                   |
| FR-7   | E-mail                        | Login Alertness                                       |

## **Non-functional Requirements:**

Following are the non-functional requirements of the proposed solution.

| FR No. | Non-Functional Requirement | Description  |
|--------|----------------------------|--|
| NFR-1  | Usability                  | To provide solution to the problem                 |
| NFR-2  | Security                   | Track of login authentication                      |
| NFR-3  | Reliability                | Tracking the status of the decade via mail         |
| NFR-4  | Performance                | Responsive and Adaptable                           |
| NFR-5  | Availability               | 24/7 service                                       |
| NFR-6  | Scalability                | Scalability of agents according to consumer volume |
